Dear Tweebaa family:

On September 4th 2020, due to malicious smashing, TWEE suffered a massive downfall abnormally and sharply. Tweebaa tried it best to protect investors rights, but the situation failed to change, unfortunately. We are so sorry for this incident that caused losses to TWEE investors.

At the same time, it is grateful to everyone who keeps supporting us during this hard time and dark moment. Tweebaa will insist on taking social responsibility and humanistic care as our core brand philosophy and company culture. Meanwhile, to ensure the official version of Tweebaa APP launched as schedule and achieve the vision of empowering and discovering individuals' hidden values. We are glad to announce an exciting program, "Tweebaa User Subsidy Program".

After several days and nights of calculations and tests, Tweebaa team has produced this "Tweebaa User Subsidy Program" that can benefit most of our investors. It will be a win-win program that can reduce investors' financial losses and show the potential for long-term investment. The details as follow:

Who will able to apply this program?

All TWEE holders and investors. Please send an email to love@tweebaa.com with following information **before 23:59 September 16 2020**

1) BitMart ID: (could be your phone number, including the country code)
2) Tweebaa Nickname
3) Your name: (Full name, please send your name in the Passport)
4) Contact email: (Make sure we are able to contact you immediately)
5) Tell us your choice: (TWEE deposit or loan application)
6) Any additional notes or queries

All the calculations and counting process will be made by Tweebaa Operating Team, please make sure you have submitted accurate and true information.

FAQ

How many losses you can get back?

Tweebaa will provide a subsidy to cover 80% of your losses. The calculation is shown below:

Subsidy= 80% * D (Total subsidized amount) =80% * A-(B+C)

The term determinations:

The restrictions on the amount of TWEE deposit:

Users allow to participate in all the following subsidy program according to the amount of TWEE held at **19:03 on September 4th 2020 (GMT+8)**

The methodology of the total amount of subsidy:

[A] Total investment cost:

Formula: A= (the total value of TWEE before the cut-off time) – (the total value of TWEE in current time)

Note: The cut-off time is 19:03 on September 4th 2020 (GMT+8)

If the users deposit their TWEE to enter the exchange and cannot calculate the total investment cost, please contact love@tweebaa.com

[B] TWEE total value in the end of the program:

Formula: B= (TWEE quantity) * (Unit price at the cut-off time)

Note 1: The cut-off time here is 8:00 AM on December 24, 2020 (GMT+8). The fairness of the current price is calculated based on the closing prices on December 23, 24, and 25.

Note 2: The amount of TWEE only counts the number of positions held by users at 19:03 on September 4 (GMT+8)

[C] Total revenue of BUCK in the program period (that is, participating in the interest-bearing BUCK currency activity of TWEE deposit in Defi during the period)

Formula: accumulated 90 days, the number of BUCK generated daily * the closing price of BUCK for the day.

Note 1: The cut-off time unit price is 8:00 on December 24, 2020, GMT+8 (that is, the daily closing time of the exchange shall prevail)

Note 2: For the detailed participation method of BUCK, please refer to the explanation in the section "BUCK Income Obtaining" below.

[D] Total amount to be subsidized

Formula: D = A-(B+C)

Note: If the value is positive, it means that a loss has occurred and the user can enjoy the Subsidy Program; if the value is zero or negative, there is no loss and the user is not eligible for the Subsidy Program.

Operating process and schedule:

Confirmation of total investment cost (Formula A)

1) The official representative shall calculate the total investment cost of investors (Formula A) based on the application information before 24:00 on September 18 (GMT+8), and at the same time, calculate the number of TWEE corresponding to that point in time. If there are problems during the period, the team will fully interact with investors. Please Investors cooperate closely.

2) In order to facilitate the verification of the one-to-one correspondence between the investor's exchange account and the Defi deposit TWEE currency interest-bearing wallet account, the mobile phone number, name, etc. entered by the investor when downloading the wallet and registering must be consistent with the BitMart exchange.

BUCK income acquisition:

1) The Defi mining cycle is 90 days, and the specific time is from 24:00 on September 25th to 24:00 on December 24th (GMT+8)

2) Users must deposit their TWEE coins before 24:00 on September 25, 2020, and follow the details below:

-If the number of TWEE deposited by the user in the wallet <(or =) the number of TWEE held at 19:03 on September 4, the actual number deposited in the wallet will be used as the calculation base for this subsidy program.

- If the number of TWEE deposited by the user in the wallet > the number of TWEE held at 19:03 on September 4, the TWEE amount number at 19:03 on Sep 4 will be used as the calculation base for this subsidy program

For example, if I have 100 TWEE at 19:03 on Sep 4. This 100 TWEE will participate this program. If I deposit 120 in the wallet, 100TWEE will be used at the calculation base. If I can only deposit 80 TWEE in the wallet, then 80TWEE will join this program.

3) BUCK is generated daily, without lock-up, and can be withdrawn at any time.

4) To show our gratitude, Tweebaa will give an extra 30% BUCK bonus to the users who have been firmly holding TWEE before and after 9.4 without any sell records.

5) During the period, if the user cancels the deposit of TWEE, it is deemed to have automatically withdrawn from this subsidy program.

Payment of the total amount to be subsidized

1) Subsidized amount: 80% * total amount to be subsidized (ie D=A-(B+C))
   Note: If the number of TWEE coins (E) deposited into the Defi wallet before 24:00 on September 25th (the download wallet address was publicly released on September 23rd) is less than the number of TWEE coins held at 19:03 on September 4th (F), the proportion is E/F, then the executed amount is the above formula *the proportion

2) Payment currency: USDT

3) Accounting time: 8:00 on December 24, 2020

4) Payment time: December 28, 2020 to December 31, 2020 (full payment completed)

Special subsidy program:

For users who encounter serious life and economic problems due to the 94 incidents, please send a message to the official mailbox, including a screenshot of the provable information. After approval, Tweebaa will give special support according to the following guidelines: based on the user's subsidy amount, A one-time grant of 20% of emergency loans.

1) Emergency loan amount = subsidized amount * 20%

2) Subsidy amount = (TWEE holding amounts at 19:03 on September 4, 2020) - (TWEE net selling amount from September 4 to the time of subsidy)-(TWEE closing price on the trading day before the subsidy date * number of holdings)

3) Payment currency: USDT

4) Users must truthfully submit an application, provide relevant materials, and execute after review and approval by the official team of Tweebaa, and sign a contract.

5) Borrowers participating in the special subsidy program no longer enjoy the rights to participate in the care subsidy program.

6) In order to ensure that the interests of both parties are not harmed, the user's TWEE must be locked during the loan period (the locked part refers to the TWEE calculation base part of this special subsidy plan), and the unlock settlement will be carried out on December 24, 2020. The calculation formula: D = (A-B) *80%, if D is greater than (or equal to) the loan amount, no refund is required. If D is less than the loan amount, the user should return the amount to the company: loan amount-D, until full refund.

7) During the period, if TWEE's market performance is outstanding, users can apply to cancel the lock-up of TWEE in advance and realize profits. Before the lock-up, the borrower needs to return the full amount of the loan to Tweebaa.
